WORK HISTORY

Jr. Developer Intern (Remote)

VIZER INC, NOV 2020 TO JAN 2021

- Wrote comprehensive RSpec tests and utilized factories for 95% of the backend models within a week.
- Integrated Detox for end-to-end testing of the user login, registration flow, and permissions stack in a mob setting.
- Implemented Test-Driven-Development while creating a tool to display users with duplicate emails in Active Admin with the intention of giving the ability for admin users to merge user accounts.
- Refactored React Native class components to functional components to follow modern conventions and tested these changes in XCode and Android Studio to ensure the user experience remains unchanged.

Web Developer (Remote)

LEARN ACADEMY, AUG 2020 TO PRESENT

- Completed 480+ hours of project-based learning, developing front-end and back-end applications in both pair and mob programming settings to encourage efficiency and effective communication.
- Gained proficiency in JavaScript and Ruby while practicing Test-Driven-Development.
- Volunteered as a teaching assistant to help prospective LEARN Academy students and adults interested in coding create a treasure hunt game using basic HTML, CSS, and JavaScript within a short weekend.
- Awarded the LEARN Academy Women's Coding Scholarship.

Greeter

DIN TAI FUNG UTC, MAY 2019 TO AUG 2020

- Designated as the main hosting trainer, empowering over a dozen employees to excel in the company's rigorous standard operating procedures and values at this Michelin Star franchise. Doing so provided consistently immaculate service to over 150 parties per shift within a fast-paced environment.
- Masterfully trained new greeters in optimum guest satisfaction from the very beginning through the end of their guest experience.
- Earned a 100% Secret Shopper score for the greeting department three months in a row.
